

LIZBETH ROCIO TUJILLO SALGADO

UX/UI DESIGNER | INTERACTIVE DESIGN

Ciudad de Mexico | +525621582920 | lizzytrujillosalgado130503@gmail.com | [Portfolio](#)

UX/UI Designer with a background in Animation and Video Game Engineering and a specialization in Interactive Design. Experienced in user-centered design, prototyping, and developing digital solutions using technologies such as React, Next.js, TypeScript, and Unity (C#). Skilled in designing applications, video games, and interactive experiences by combining technical and design expertise to create functional, intuitive, and user-focused products.

EXPERIENCIA PROFESIONAL

UX/UI Designer | Enacment

Oct 2025 - Present

- Designed user-centered web and mobile applications from research to high-fidelity prototypes.
- Conducted UX research, usability testing, heuristic evaluations, and A/B testing to validate design decisions.
- Created user personas, journey maps, user flows, wireframes, information architecture, and interactive prototypes.
- Designed scalable design systems, visual identities, and UX writing aligned with accessibility and brand guidelines.
- Collaborated with clients and cross-functional teams to translate business requirements into intuitive digital experiences.

Key Achievements

1. Designed 8+ user-centered digital products across healthcare, logistics, e-commerce, and corporate services.
2. Developed 15+ interactive prototypes, validated through user testing and iterative design improvements before development.
3. Facilitated 8+ Design Thinking workshops with stakeholders to identify user needs, define requirements, and co-create digital solutions.
4. Contributed to 3+ international digital projects, collaborating with multidisciplinary teams and stakeholders.
5. Created reusable design systems and component libraries, ensuring design consistency and streamlining developer handoff.

Frontend Developer | CIA Chain Solutions

Aug 2023 - Dec 2024

- Developed responsive web interfaces using React, Next.js, and TypeScript.
- Translated Figma designs into pixel-perfect, production-ready interfaces while ensuring design consistency.
- Collaborated closely with UX/UI designers to refine interfaces and improve implementation quality.
- Worked in an Agile (Scrum) environment using Git/GitHub for version control.

Key Achievements

1. Contributed to the development of a digital loyalty platform, transforming UX/UI designs into functional and responsive web interfaces.
2. Bridged the gap between design and development by collaborating with UX/UI designers and providing implementation feedback to improve the final user experience.
3. Optimized front-end implementation through reusable React components and clean, maintainable code.

Gameplay Developer | PCI LAB

Jan 2023 - Dec 2025

- Developed gameplay mechanics, interaction systems, and physics using Unity and C#.
- Performed functional testing, bug identification, and quality assurance to ensure a stable gameplay experience.
- Collaborated with programmers, artists, and multidisciplinary teams in an Agile (Scrum) environment throughout the development process.

Key Achievements

1. Contributed to the development of a serious game designed to promote emotional awareness and self-regulation among university students.
2. Identified and documented bugs, collaborating with the development team to improve gameplay quality and stability before public demonstrations.
3. Collaborated with multidisciplinary teams, including psychology researchers, programmers, and artists, to translate educational objectives into interactive gameplay.

President – Animation and Video Game Engineering Student Association

Aug 2022 – Aug2023

- Planned and organized workshops, events, and community activities.
- Collaborated with faculty members and external speakers to organize educational initiatives.
- Managed communication between students, faculty, and project teams.

Key Achievements

1. Led a multidisciplinary student organization, coordinating initiatives that strengthened student engagement and collaboration.
2. Developed leadership, stakeholder management, and project coordination skills through planning and executing organizational initiatives.

EDUCATION

Bachelor's Degree in Animation and Video Game Engineering

Aug 2021 – Aug 2025

Universidad Panamericana

Specialization in Interactive Design

Aug 2025 – Mayo 2026

Universidad Panamericana

Master's degree in Engineering

Aug 2026 – Present

Universidad Panamericana

SKILLS

UX-UI

User Research • User Personas • Journey Mapping • User Flows • Information Architecture • Wireframing • Interactive Prototyping • Design Systems • UX Writing • Accessibility • Usability Testing • Heuristic Evaluation • A/B Testing

DEVELOPMENT

React • Next.js • TypeScript • Unity (C#) • SwiftUI • Python • C++

AI TOOLS

ChatGPT • Claude • Gemini • Cursor • Codex • Stitch • NotebookLM • Lovable

TOOLS

Figma • FigJam • Miro • Napkin • Coda • Notion • Git • GitHub • Illustrator • Premiere Pro • After Effects

PROFESSIONAL SKILLS

User-Centered Thinking • Effective Communication • Cross-Functional Collaboration • Analytical Thinking • Problem Solving

ADDITIONAL INFORMATION

- Languages: Spanish (Native), English (Intermediate–Advanced)
- Certifications
 - Certifications:App Development with Swift Associate
 - Unity Essentials Pathway
